

Code No: D4001

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD M.Tech II - Semester Examinations, March 2011 ADHOC AND SENSOR NETWORKS (INFORMATION TECHNOLOGY) Max. Marks: 60

Time: 3hours

Answer any five questions

All questions carry equal marks - - -

 (a) What are the characteristics of MANETs. (b) Discuss about the topology based routing algorithms in MANETs. 	[12]
(c)	[]
2. Write about the Broadcast storm problem in detail.	[12]
3. Explain the Architecture of Wireless Sensor Networks with neat diagrams.	[12]
4. Discuss about the Inherent Dynamic nature of Wireless Sensor Networks.	[12]
5. Explain the routing layer design issues in sensor networks.	[12]
6. Explain the key management to secure the data transmissions in Wireless senso networks.	or [12]
7. What are the sensor network programming challenges and describe these in detail. [12]	
8. (a) Write short notes on Tiny OS	
(b) What is the importance of ns-2 Simulator in WSN and how it is used to simulate the data transmissions?	ulate [12]
